Good Morning Vinny,

If you could submit written testimony on what would have been said at tonight's public hearing, the Council should be able to pass the petition without representation.

If you can get that to me before the end of the day, that would be great. It would give me time to send the information to the City Council before the meeting begins. Thank you.

Best,

Ti

Hi Ti. See below.

After reviewing the scope of the project, the existing business is upgrading their electrical service as well as going from overhead to underground. Their service is going to be fed from a pad mounted transformer on their property that will need to be fed from a new riser pole which we will be installing, also on their property. To bring service to this riser pole, we're asking permission to install a new 45' Class 2 JO pole 3 directly across from the new riser pole.
